(3/3) The EV industry now awaits the corresponding reduction of the 18% GST in the spare batteries as it will help maintain the low running cost of EVs over their lifetime."#SMEV\_Official

@TheSMEV

(2/3) We welcome the 7% reduction in GST as it will reduce the gap between the EVs and the IC Engine vehicles. If FAME 2 was a dampener, the GST reduction is certainly a bright spot in the National EV policy.
